

Treatment Calendars

SUSTAINABLE PEST MANAGEMENT IN PRACTICE

TreeLife integrates up-to-date standards and research with sustainable practices and preemptive strategies. Decades of in-field, hands-on experience has led us to understand the ins and outs of tree health management.

Healthy plants and trees do not commonly develop secondary pests. *TreeLife* is dedicated to uncovering primary causes, alleviating secondary disorders, ultimately getting our trees on a path to remediation.

THE VALUE OF TREATMENT CALENDARS

Our treatment calendars simplify pest management in your landscape. Helpful insects can be negatively affected by improper application methods and, or timing.

Call *TreeLife* for a treatment calendar, plan ahead, and let's turn the tables on these pests!

WHY TREELIFE

- Decades** of hands on, in-field experience.
- Proven** treatment methods and timing strategies.
- Dedicated** to the health, longevity and proper care of our urban forest and environment
- Peace-of-mind** all year long with routinely scheduled treatments.
- Actualize** and enjoy the benefits of your green investment.
- Protect** and enhance your urban forest.
- Retain** mature trees.
- Call *TreeLife*!**
